ANNUAL REPORT ON THE WORKING OF THE BOARD OF INDIAN MEDICINE, UNITED PROVINCES, FOR THE YEAR 1939-40

THE constitution of the Board of Indian Medicine, United Provinces, during the year 1939-40 remained the same as in the previous year and was as follows :

CHAIRMAN

(1) Sir Syed Wazir Hasan, ex-Chief Judge of Oudh, Lucknow.

MEMBERS

Nominated by Government

(2) Shri Lakshmi Narain, B.A. (HONS.), M.L.C., Hapur, district Meerut.

(3) Hakim Mohammad Nasiruddin Zahiri, Bab-us-Shifa, Meerut.

(4) Khan Sahib Hakim Saiyid Wahiduddin Ahmad Jafri, Allahabad.

(5) Pandit Shiam Lal, Vaid, Chowk, Lucknow.

(6) Pandit Ganesh Datt Saraswat, B.A., Ayurvedacharya, Rishikul Ayurvedic College, Hardwar.

(7) Shifa-ul-Mulk Hakim Abdul Hamid, Takmil-ut-Tib College, Lucknow.

Elected by the United Provinces Legislative Council

(8) Mr. Izhar Ahmad Faruqi, B.A., M.L.C., Bara Banki.

Elected by the United Provinces Legislative Assembly

(9) Shri R. V. Dhulekar, M.A., LL.B., M.L.A., Jhansi.

(10) Pandit Shiv Ram, Vaid, M.L.A., Lucknow.

Representing Unani Teaching Institutions

(11) Shifa-ul-Mulk Hakim Abdul Haseeb, Cantonment Road, Lucknow.

(12) Hakim Abdul Latif, Tibbiya College, Muslim University, Aligarh.

Representing Ayurvedic Teaching Institutions

(13) Kaviraj Pratap Sinha, Ayurvedic Pharmacy, Benares Hindu University, Benares.

(14) Pandit Rajeshwar Datt Misra, Ayurvedic College, Benares Hindu University, Benares.

Representing Registered Vaids

(15) Pandit Jagannath Prasad Shukla, Daraganj, Allahabad.

(16) Pandit Jagannath Sharma Bajpai, Assi, Benares.

Representing Registered Hakims

(17) Hakim Ahmad Usmani, Sabzimandi, Allahabad.

(18) Hakim Maulvi Zaheer Alam, Nakhas Kohna, Allahabad.

Elected by the Benares Hindu University

(19) Pandit Satya Narain Shastri, Benares.

Elected by the Muslim University, Aligarh

(20) Dr. A. Butt, M.D., M.B., B.S., Tibbiya College, Aligarh.

Elected by the Allahabad University

(21) Dr. S. B. Dutt, D.SC., Allahabad.

Elected by the Lucknow University

(22) Rai Bahadur Lala Mathura Prasad Mehrotra, B.A., Biswan, district Sitapur, up to 28th February, 1940. Lala Hari Ram Seth, B.A., LL.B., Maurawan, district Unao, from 29th February, 1940.

Elected by the United Provinces Anjuman Tibbiya, Lucknow

(23) Hakim Mohammad Abdul Moid, Jhawai Tola, Lucknow.

Elected by the United Provinces Vaid Sammelan, Cawnpore

(24) Pandit Rameshwar Misra, Cawnpore.

SECRETARY

(25) Mr. S. Phillips, Lucknow.

Meetings of the Board and Sub-committees

2. Two general meetings of the Board were held during the year 1939-40. The following sub-committees consisting of selected members of the Board also met from time to time :

(*a*) Examination Board,

(*b*) Courses Committee,

(*c*) Recognition Committee,

(*d*) Grants-in-aid Committee,

(*e*) Registration Committee, and

(*f*) Finance Committee.

The Board remained engaged during the year under review in disposing of work connected with the registration of the indigenous medical practitioners, recognition of educational institutions for purposes of registration, examination of Ayurvedic and Unani educational

institutions under the control of the Board, affiliation of certain other educational institutions to the Board, amendment of the courses prescribed for teaching in affiliated institutions, distribution of grants-in-aid to dispensaries and educational institutions and introduction of new schemes for the expansion of the Ayurvedic and Unani systems of medicine.

Examination Board

3. The Board conducted the practical and theoretical examinations of candidates sent up by the Ayurvedic and Unani educational institutions affiliated to it in March and April, 1939, at four centres, i.e. Lucknow, Aligarh, Allahabad and Hardwar. The total number of candidates who appeared at these examinations was 123 as against 118 last year.

Annual Examination

4. Fourteen candidates appeared at the 5th Year Unani College (Final) Examination for the Diploma in Indigenous Medicine (Unani) and Surgery from the Tibbiya College, Muslim University, Aligarh, and all of them were successful.

Seventeen candidates out of 21 who appeared at the 3rd Year Unani College Examination from that College were successful, while two candidates were placed in the compartment and two failed.

Twelve candidates out of 19 passed the 2nd Year Unani College Examination from the same College, while three were placed in the compartment and four failed.

Four candidates out of seven passed the 4th Year Unani Schools (Final) Examination for the Diploma in Indigenous Medicine (Unani) from the Unani Medical School, Allahabad, while one was placed in the compartment, one failed and one was absent.

Seven candidates appeared at the 2nd Year Unani Schools Examination from that school and all of them were successful.

Six candidates out of 11 passed the 4th Year Unani Schools (Final) Examination for the Diploma in Indigenous Medicine (Unani) from the State-aided Unani Medical School, Lucknow, while three were placed in the compartment and two failed.

Three candidates out of eight passed the 2nd Year Unani Schools Examination from that school while three of them were placed in the compartment and two failed.

Eight candidates out of 12 passed the 4th Year, 2nd Professional, Part B, Ayurvedic School (Final) Examination for the Diploma in Indigenous Medicine (Ayurvedic) from the Rishikul Ayurvedic College (School), Hardwar, and four failed.

Six candidates out of seven passed the 3rd Year, 2nd Professional Ayurvedic School Examination, Part A, from that institution and one failed.

Eleven candidates out of 18 passed the 2nd Year, 1st Professional Ayurvedic School Examination from the same institution while four were placed in the compartment and three failed.

Some members of the Board were present at each centre at the time that the examinations were held.

Compartmental Examinations

5. The Board held compartmental examinations of the Ayurvedic and Unani educational institutions affiliated to it six months after the date of the annual examinations, i.e. in the month of October, 1939, at the centres mentioned above.

Two candidates who were placed in the compartment at the 3rd Year Unani College Examination (Annual) held in April, 1939, were successful in the compartmental examination.

Three candidates who were placed in the compartment at the 2nd Year Unani College Examination (Annual) held in April, 1939 passed in the subjects in which they had failed in that examination.

The candidate belonging to the Unani Medical School, Allahabad, was absent at the compartmental examination of the 4th year class.

Three candidates belonging to State-aided Unani School, Lucknow, who were placed in the compartment at the 4th Year Unani Schools (Final) Examination (Annual) held in April, 1939, were successful. Three candidates belonging to the 2nd year class of that school, who had been placed in the compartment were also successful.

Four candidates who were placed in the compartment at the 2nd Year Ayurvedic School Examination (Annual) held in April, 1939, passed in the subjects in which they had failed in the annual examination.

The results of the annual examination were published in Part IV of the *United Provinces Government Gazette*, dated the 27th May, 1939, at pages 164 to 167 and those of the compartmental examinations were also published in Part IV of the same *Gazette*, dated the 23rd December, 1939, at pages 319 and 320.

The fee realized from students who were admitted to these examinations amounted to Rs.1,565-12.

Convocation

6. No convocation of the Ayurvedic and Unani educational institutions affiliated to the Board could be held this year owing to paucity of funds.

Courses Committee

7. During the year under review a revised course of studies for Ayurvedic colleges has been prepared. The Board has also added a question paper in Ayurvedic Surgery to the final year examination of the Ayurvedic schools.

Recognition Committee

8. The following institutions which had applied for affiliation to the Board as colleges were visited by the Recognition Committee

during the year under report to find out whether they were fit for teaching the college course :

(1) State-aided Rishikul Ayurvedic College, Hardwar.

(2) Bundelkhand Ayurvedic College, Jhansi.

(3) Takmil-ut-Tib College, Lucknow.

(4) State-aided Unani Medical School, Lucknow.

(5) Unani Medical School, Allahabad.

The first four institutions have been recognized by the Board as colleges.

The Committee also visited the Madrasa-i-Misbahul-Uloom, Allahabad, which had applied for affiliation as a school and recommended it for affiliation provided that it complied with certain conditions laid down by the Committee.

Distribution of Grants

9. The introduction of the scheme under which 192 Ayurvedic and Unani dispensaries have been established in rural areas by Government under the Rural Development Department has been greatly appreciated by the Board and it has no doubt that these dispensaries will render valuable service in those areas.

The Board distributed grants varying from Rs.60 to Rs.2,960 during the year under review out of the allotment of Rs.49,500 placed at its disposal to 435 dispensaries as against 467 dispensaries in 1938–39. A portion of this allotment was utilized in subsidizing 66 indigenous medical practitioners who had agreed to settle down in villages and small towns for practice and to give free medical aid to poor patients. The scheme under which subsidies are given to vaids and hakims in rural areas was introduced by the Board in 1936–37 to enable the inhabitants of those areas to get medical treatment under the supervision and able guidance of qualified vaids and hakims who were fully trained in the modern system of indigenous medicines. But owing to inadequacy of funds the Board has not been able to maintain a sufficient number of subsidy-holders in later years. The details of the grants referred to above are given below :

Ayurvedic

		Rs.
34	private dispensaries in urban areas	2,280
86	private dispensaries in rural areas	5,520
23	public dispensaries in urban areas	5,690
34	public dispensaries in rural areas	4,275
83	dispensaries under the control of 12 district boards in the Province	1,645
5	dispensaries under the control of 4 municipal boards in the Province	375
3	dispensaries maintained by recognized teaching institutions which also receive aid from Government direct	3,285
4	dispensaries maintained by unrecognized teaching institutions which do not receive any aid from Government direct ..	1,920
32	subsidized dispensaries	3,840
304	Total ..	28,830

Unani

		Rs.
40	private dispensaries in urban areas	2,645
44	private dispensaries in rural areas	2,890
7	public dispensaries in urban areas	1,000
2	dispensaries maintained by recognized teaching institutions which also receive aid from Government direct	4,560
2	dispensaries maintained by recognized teaching institutions which do not receive any aid from Government direct ..	5,095
2	dispensaries maintained by unrecognized teaching institutions which do not receive any aid from Government direct ..	400
34	subsidized dispensaries	4,080
131	Total ..	20,670
	Grand Total 435 dispensaries ..	49,500

Last year 368 dispensaries (actual including 88 subsidized dispensaries) received grants from the Board. Out of these, 318 dispensaries (including 60 subsidized dispensaries) were allotted grants again in the year under report. The remaining 50 dispensaries (including 28 subsidized dispensaries) were not given any grants as the proprietors of some of them had accepted service under the Rural Development scheme, some dispensaries were not reported on favourably by the inspecting authorities or they had closed down or did not do any useful work justifying the renewal of grants to them and some failed to carry out the instructions of the Board in regard to the submission of monthly and annual returns to its office.

The number of new applications for grants was 480 (388 Ayurvedic, 89 Unani and 3 new municipalities which applied for aid for the first time). Of these only 46 (27 Ayurvedic and 19 Unani) were given grants. Four Municipal Boards, i.e. Orai, Agra, Bareilly and Lucknow and the District Boards of Lucknow, Hardoi, Rae Bareli, Bahraich, Ballia, Jhansi, Hamirpur, Fatehpur, Farrukhabad, Etah, Pilibhit and Fyzabad, 12 in number, were given grants for the year 1939-40 for the maintenance of Ayurvedic dispensaries only under their control. No grants could be given for the maintenance of Unani dispensaries under them.

Registration of Vaids and Hakims

10. As already reported on several occasions, the scheme for the registration of vaids and hakims has been gaining great popularity owing to the passage of the United Provinces Indian Medicine Act (X of 1939) with the result that the number of applications received by the Board from them for registration of their names during the year 1939-40 was larger than what it was in the previous year. 4,727 applications were received from vaids and hakims during the year. 2,683 vaids (582 A class and 2,101 B Class) and 1,772 hakims (735 A class and 1,037 B Class) were registered in the year under review and many applications were rejected as the qualifications of the persons presenting them were not of the required standard.

It is gratifying to note that a large number of indigenous practitioners who were at first opposed to the scheme have now begun to realize its advantages and have got themselves registered.

The fee realized on account of registration from 2,683 vaids and 1,772 hakims who were registered during the year 1939-40, amounts to Rs.28,860.

A sum of Rs.83-6-6 was also realized by the Superintendent, Government Printing and Stationery, United Provinces, Allahabad, during the year from the sale of 667 copies of Registration Rules. He also realized Rs.13 from the sale of eight copies of the list of registered vaids and hakims. Further, three copies of the prospectus for Ayurvedic schools were sold for Re.1-2.

The question regarding permission to be accorded to vaids and hakims qualified from the Ayurvedic College, Benares, as also from the institutions affiliated to the Board to give injections to patients during epidemics such as cholera, plague and small-pox was reconsidered by the Board. The Board in consideration of the fact that the training imparted by the institutions in question is based on systematic modern lines has decided that Government be addressed on the subject again so that the services of the vaids and hakims concerned may be availed of with advantage.

During the year under report six institutions, i.e. Ayurvedic Tibbia College, Saharanpur, Asfia Tibbia College, Bhopal, the Rajputana Ayurvedic and Tibbia College, Jaipur, M. S. Ayurvedic College, Delhi, Tibbia Habibia College, Dacca and the Bhupendra Tibbia College, Patiala, were recognized by the Board for purposes of registration.

The Board also decided to recognize for purposes of registration such of the institutions as were recognized by the Central Board of Indian Medicine, Madras, for the same purpose.

Accounts, Forms, Stationery, Furniture and Movable property

11. The accounts of the Board were kept in proper order during the year under report. All the registers required for purposes of the accounts were maintained and they were audited under the direction of the Examiner, Local Fund Accounts, United Provinces. The auditors also examined stock-books of forms, stationery, furniture and other movable property maintained by the Board. The Chairman of the Board dealt with all questions relating to the finances of the Board.

Office Establishment

12. The activities of the Board expanded in various ways during the year under report. As a result, the work in the office also increased so much so that at times it assumed unmanageable proportions. It has been reported to Government on several occasions previously that so far as the permanent staff is concerned the office is undermanned and needs strengthening but Government has not been able to accede to this request. The registration work has increased by leaps and bounds during the last two years in consequence of the passage of the United Provinces Indian Medicine Act (X of 1939) and the

Board has had to engage the services of some outsiders on wages to cope with the work.

The number of letters received in the office during the year under review was 10,015 and the number of letters despatched was 9,417. 5,424 monthly returns, 452 annual returns, 679 inspection notes and 587 reports were also received in the office and these had to be scrutinized carefully by the office in order that they might be of use to the Grants-in-aid Committee.

An allowance of Rs.15 per mensem was also paid for six months with effect from April, 1939, to a part-time clerk who was engaged at the Tibbia College, Muslim University, Aligarh, in connexion with examination work.

The working of the Dispensaries

13. As will appear from a perusal of paragraph 9 of this report 435 Ayurvedic and Unani dispensaries in the Province including the subsidized dispensaries were allotted grants-in-aid for the year 1939-40. The dispensaries in the rural areas treated 2,501,294 patients free of charge during the year under report, as against 2,553,422 patients in the previous year. The dispensaries in the urban areas afforded medical relief free of charge to 2,119,897 patients as against 2,283,263 patients in the preceding year. The total number of patients treated free of charge by these dispensaries was 4,621,191 in the year under report as against 4,836,685 in the preceding year at a cost of Rs.49,500 sanctioned by Government under head "Development of Indigenous systems of medicine in the United Provinces," *vide* Statement no. I attached to this report.

Ayurvedic and Unani Schools and Colleges

14. The number of Ayurvedic and Unani educational institutions which received grants from the Board was the same this year as in the preceding year. The two Ayurvedic and Unani colleges at Jhansi and Lucknow, respectively (recently affiliated to the Board), four Ayurvedic schools at Etawah, Cawnpore, Pilibhit and Bahraich and three Unani schools (two at Lucknow and one at Allahabad, which is affiliated to the Board) received aid from the Board for the maintenance of the dispensaries attached to them and for imparting training in the indigenous systems of medicine. Out of these nine institutions only the Bundelkhand Ayurvedic College at Jhansi received aid from Government direct for the year under report.

Further, there are two Ayurvedic and Unani schools at Hardwar and Lucknow (recently recognized as colleges) and two Ayurvedic and Unani colleges at Benares and Aligarh respectively, which received aid from Government direct. The Board also gave aid to these four State-aided institutions for the maintenance of their dispensaries which give free medical aid to the general public.

The Ayurvedic and Unani institutions which do not receive any aid from Government direct deserve adequate help to enable them to bring

themselves to the required standard of recognition and thus to contribute to general improvement in the indigenous systems of medicine. Some of these institutions do not have sufficient funds for the entertainment of a more highly qualified staff and for procuring additional equipment. The Board is not in a position to help these institutions adequately unless the Government is pleased to increase the lump sum grant placed at its disposal every year.

Out of the above 13 institutions only seven, namely the Tibbiya College, Muslim University, Aligarh, the Ayurvedic College, Hindu University, Benares, the Rishikul Ayurvedic College (recently recognized as a College), Hardwar, the State-aided Unani Medical School, Lucknow, the Bundelkhand Ayurvedic College, Jhansi, the Takmil-ut-Tib College, Lucknow, and the Unani Medical School, Allahabad, have so far been recognized by the Board. Further particulars on the working of these institutions are contained in Statement no. II attached to this report.

The Board notes with satisfaction the allotment of a special non-recurring grant of Rs.5,000 made by Government to the Ayurvedic and Unani Tibbia College, Delhi, for its Research Institute. In the absence of a well established Research Institute in connexion with the indigenous systems of medicine in the United Provinces, the Delhi institution will be of great help to students of this Province in obtaining training in research work there.

Inspection and Reports

15. During the year under report the Board requested the Revenue authorities to inspect 467 aided and subsidized dispensaries and educational institutions (454 dispensaries and 13 educational institutions) in the urban and rural areas. They inspected 420 dispensaries and 13 educational institutions and did not inspect 34 dispensaries.

The District Boards in the Province were requested to inspect 239 aided and subsidized dispensaries and educational institutions (237 dispensaries and 2 educational institutions) excluding 104 dispensaries of their own in the rural area out of the 467 dispensaries and educational institutions which the Revenue authorities were asked to inspect but they inspected only 157 dispensaries and two educational institutions. They did not inspect 80 dispensaries.

The Municipal Boards were requested to inspect 113 aided dispensaries and educational institutions (102 dispensaries and 11 educational institutions) excluding 11 dispensaries of their own in the urban area out of the 467 dispensaries and educational institutions which the Revenue authorities were asked to inspect but they inspected 78 dispensaries and nine educational institutions and did not inspect 24 dispensaries and two educational institutions.

The Revenue authorities were also requested to report on 420 new dispensaries in urban and rural areas which had applied for grants and subsidies during the year under review. They submitted reports about 333 dispensaries. The remaining 87 were not reported on. The District Boards were requested to furnish reports regarding 322 new dispensaries in rural areas out of the 420 dispensaries which the

Revenue authorities were asked to inspect but they submitted reports about 202 dispensaries and did not send any report as to the remaining 120 dispensaries. The Municipal Boards were requested to report on 98 new dispensaries in urban areas out of the 420 dispensaries about which the Revenue authorities were asked to report but they submitted reports regarding 52 dispensaries and did not send any report about 46 dispensaries.

From these figures it will appear that a large number of dispensaries were not inspected by these authorities during the year under report. Printed forms containing the points on which the inspection should have proceeded were supplied by the Board to the Revenue authorities and District and Municipal Boards as usual.

The proposal of Government in respect of the appointment of inspectors for the Ayurvedic and Unani dispensaries and pharmacies was regarded by the Board as a practical means of improving the indigenous systems of medicine generally and its introduction would have removed a long felt want. The Government has, however, dropped the question of the appointment of inspectors and the Board would again invite the attention of the Government to the necessity of appointing these inspectors to ensure the efficient working of the dispensaries and pharmacies.

Inspection by Members of the Board

16. Certain members of the Board, viz., Shifa-ul-Mulk Hakim Abdul Haseeb, Pandit Jagannath Prasad Shukla, Vaid, Hakim Mohammad Nasiruddin Zahiri, Pandit Shyam Lal, Vaid and Pandit Rameshwar Misra, Vaid, inspected 1, 1, 1, 3 and 1 dispensaries respectively in the course of their ordinary avocations during the year under report. Some members of the Grants-in-aid Committee also favoured the Board with their opinion about the work of other dispensaries at the time that grants were distributed.

The assistance received from the members of the Board particularly from the members of the various sub-committees during the year under review is acknowledged.

In the last year's report I had made the following observation as regards the work of the Secretary of the Board, Mr. S. Phillips, and I have much pleasure in repeating it this year :

> "As in the previous years so in this year Mr. S. Phillips has maintained the high standard of efficiency, integrity and thoroughness in the discharge of his work as Secretary of the Board. I do earnestly hope that his meritorious services for a continuously long period of time will soon receive recognition from Government in a suitable manner."

The two clerks Babu Babu Lal and Babu Gopal Krishna Gupta gave me entire satisfaction with their work.

LUCKNOW :

The 27th December, 1940.

WAZIR HASAN,

Chairman, Board of Indian Medicine,

United Provinces.

STATEMENT No. I

Statement showing the number of patients treated by Ayurvedic and Unani dispensaries and institutions in the United Provinces which received aid and subsidy from the Board of Indian Medicine United Provinces, for the year **1939-40.**
